SUMMARY

Interim Manager Technical Contract Execution Fire Suppression. The candidate must be a certified mechanical engineer. He or she must have a proven track record of successful assignments within the industry. Working in all Spain were most of the clients are located. We are looking for 1 professional to assume the assignment.

COMPANY DESCRIPTION

The Company is active in the fields of fire detection and fire extinction technologies. The Company is involved in direct sales, project design and management of fire protection solutions, execution and services thereof. It has been active in this field across Spain for many years, and has been specializing in the petrochemical and pharmaceutical/industrial markets

JOB DESCRIPTION

The mother company has decided to exit the Spanish market. the period foreseen to run down this work bank is until spring 2011. While much of the work has been subcontracted to specialized installation companies, it is critical to oversee their work and to proactively manage the wind-down process and related cost budgets. Given the expected impact on staff and management once the closure is being announced, the Company believes it needs to hire an external interim manager who oversees the 15 staff strong technical contract execution department.

EXPERIENCIA

The candidate must have experience in the contract execution of fire extinction technologies. Work experience must be very close to the typical work conducted in the fire protection industry (e.g. HVAC, BMS).

FORMACION

The candidate must be a certified mechanical engineer. He or she must have a proven track record of successful assignments within the industry.

IDIOMAS

Spanish and fluent English.

HABILIDADES y HERRAMIENTAS

Leadership, execution skills, project management and documentation, negotiation skills, quality and health and safety management.

CONDITIONS

Interim management. Freelance contract.

Salary

To be negotiated.
